Implement  
Manager starting  
page

Set up Telegram  
bot

# Initial planning – Stories

- ▶ **8 stories (in order of Business value)**
  - ▶ **Telegram update products available (BV = 89)**
    - ▶ As a Registered user I want to get updated via Telegram when the updated list of available products is available So that I can look at them on the web page
  - ▶ **Check unretrieved food (BV = 87)**
    - ▶ As a Manager I want to get weekly and monthly reports of unretrieved food So that I can take manual action to diminishing it
  - ▶ **Alert frequent missed pickups (BV = 83)**
    - ▶ "As a Manager I want an automatic warning is sent to clients after 3 and 4 cumulative missed pickups So that they are aware they will be suspended at the 5th cumulative missed pickup"
  - ▶ **Client order suspension (BV = 82)**
    - ▶ "As a Manager I want that clients are automatically suspended for one month when the 5th cumulative missed pickup is reached"
  - ▶ **Telegram balance (BV = 70)**
    - ▶ As a registered user I want to ask the telegram bot my wallet balance
  - ▶ **Telegram Confirmation (BV = 56)**
    - ▶ As a Registered user I want to receive a telegram msg confirming my order after payment has been processed
  - ▶ **Telegram reminder (BV = 51)**
    - ▶ "As a registered user I want to receive periodic telegram reminder if my balance is insufficient to complete the order So that I remember to top-up"
  - ▶ **Telegram top-up (BV = 49)**
    - ▶ "As a registered user I want to receive a telegram message when my balance is topped-up"

# Attention

- ▶ Story **SPG 21- Missed pick up** had a **Business Value of 50** and was not committed.
- ▶ Instead, story **SPG-47 - Telegram top-up** with a **BV of 49** was committed in the sprint backlog.
- ▶ This is why SPG-21 was **too large** to fit in this sprint, instead SPG-47 was perfectly fitting in the sprint
